

Lisa Carmel

Chair – Business Development

Lisa Carmel is a chair in the Department of Business Development, leading strategic partnerships across Mayo Clinic's global enterprise to include medtech, biopharma, diagnostics, healthcare IT and AI, as well as health services, automation and robotics. In her role, she is focused on developing and expanding transformative partnerships and business deals, with a keen interest in mission-critical initiatives, such as Mayo Clinic's 'Bold. Forward. Unbound. Hospital of the Future.'

Lisa brings more than 30 years of experience in healthcare product commercialization and innovation, working with companies across the U.S., Europe and China. She has advised numerous startups and accelerators, including California Life Sciences' FAST program and MedTech Innovator. She co-chairs the MedTech Women's Advisory Board, serves on the Governing Board for BioLabs – Rochester MN in collaboration with Mayo Clinic, and is an advisor to the Cleveland Clinic MedTech Advisory Board and UCLA Biodesign.

Our primary value

The needs
of the patient
come first

Passionate about emerging healthcare innovation trends, Lisa frequently speaks at industry events, authored a blog and podcast, and chairs key healthcare conferences.
